

Welcome To

Pearl Of Africa Primary School

SINCE 2014

Welcome to Pearl of Africa Primary School a unique educational community where students enjoy a modern, personalized approach to education. We opened the doors to our primary school in 2014, following 30 years of excellence in pre-primary education at Kissyfur International Pre/Center, to meet the increasing demands of the families we had been serving. Our vision is to offer a holistic, high-quality education for students from a wide range of backgrounds, cultures, religions and abilities. We are known throughout the region as an inclusive, academically high-performing school, in which no child is left behind. Pearl of Africa follows the Uganda National Curriculum and offers classes from Primary One to Primary Seven. Additionally, our school has been accredited by Alliance Francaise and Proudly offers French language lessons & Computer lessons (ICT).

We are located at Plot 10 Nakasamba close, Entebbe. The new larger customized facility has been designed to maximize student learning and social emotional development. Beyond academics, students have the opportunity to participate in various sports and enjoy weekly swimming lessons in our private pool. They can also explore their creativity through drama, dance and music. We encourage you to be our partners. Please come for visit and come and talk to us. See what it's like to become a part of our community and share in the joyful experience of learning.
